

**Tripod bracket
for
DJI CENDENCE**

by Thor's Drone World

User's Manual

Content:

- Mounting bracket
- Quick release bracket
- Hex Key / Allen Key
- (2x) Screws $\frac{1}{4}$ " – 20 x $\frac{3}{8}$ "

How to assemble:

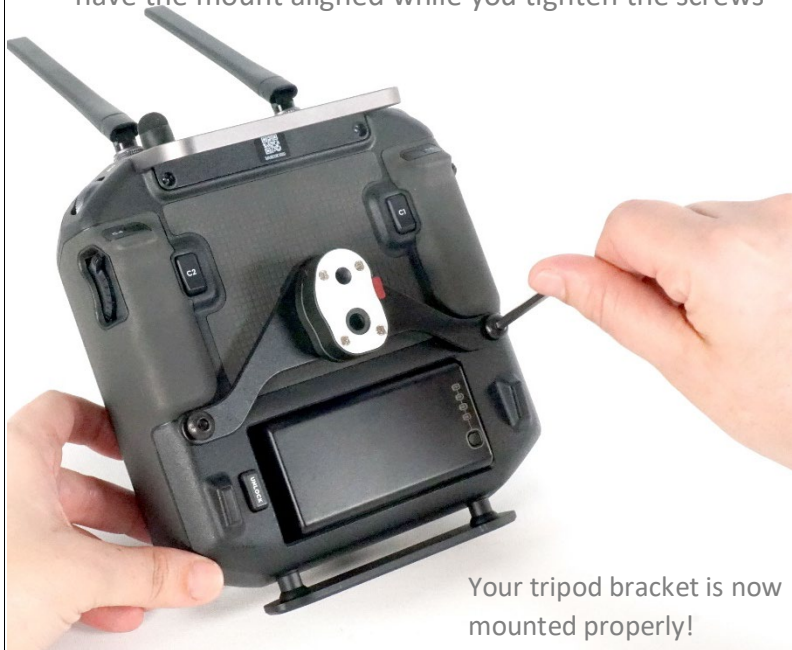

Locate the screw points on the bottom of your Cendence RC.

Align the tripod bracket with the screw point on the RC as shown in the picture.

Secure the tripod bracket with the screws provided, you can insert both screws before screwing them to have the mount aligned while you tighten the screws

Your tripod bracket is now mounted properly!

Remove the Quick Release bracket from the mount by pressing the red release bottom located on the side and sliding it downwards.

Mount the counter
part of the Quick
release bracket to
your tripod device.

To attach your RC,
simply slide upwards
to lock the quick
release brackets.

All set!
Enjoy your flight!
